

B.Tech in Computer Science Engineering (CSE)

PROFESSIONAL SUMMARY

I am a cse Student with a good enough foundation in programming, data structures, and algorithms. I am passionate about software development and continuously improving problem-solving skills through coding practice .and also,Familiar with version control, debugging, and writing efficient, maintainable code. I am eager to apply my knowledge in real-world development environments while learning modern software engineering practices.

TECHNICAL SKILLS

Programming Languages: C, C++, Python

Core Computer Science: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Problem Solving, Basic Time & Space Complexity Analysis

Tools & Technologies: Git, GitHub, Visual Studio Code

Concepts: Debugging, Version Control, Basic Command Line, STL (C++), Basic Software Development Workflow

CODING PROFILES & ACHIEVEMENTS

- Solved **30+ algorithmic programming problems** across **LeetCode** and **Codeforces**.
- Regularly practice Data Structures and Algorithms to strengthen problem-solving and coding proficiency.
- Continuously improving understanding of arrays, strings, linked lists, stacks, queues, sorting, searching, and basic algorithmic techniques.

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Team Collaboration
- Communication
- Adaptability
- Continuous Learning
- Time Management
